

Coppin State University SAAC

Our Student-Athlete Advisory Committee (SAAC) is a committee made up of student-athletes assembled to provide insight on the student-athlete experience. The SAAC also offers input on the rules, regulations and policies that affect student-athletes' lives on NCAA member institution campuses. The Coppin State University SAAC is comprised of student-athletes from the 10 athletic teams, with at least one representative from each team.

The SAAC at Coppin State University is used to facilitate the CHAMPS/Life Skills Program to our student-athlete population. The CHAMPS/Life Skills Program was created to support the student development initiatives of Coppin State and to enhance the quality of the student-athlete experience within the campus.

In the process of achieving this mission, the CHAMPS/Life Skills Program at Coppin State University will:

- Support efforts of every student-athlete towards intellectual development and graduation.
- Use athletics as preparation for success in life.
- Encourage the development of leadership skills.
- Provide substance abuse prevention efforts within the athletic department.
- Promote respect for diversity among student-athletes.
- Enhance interpersonal relationships in the lives of student-athletes.
- Enable student-athletes to make meaningful contributions to their communities through community service projects.
- Assist and support in the student-athlete's development in five areas: academics, athletics, personal development, career development, and community service.
